Systems Analysis Branch/P&PS/OL
WEEKLY STATUS REPORT
Week of 29 August to 2 September 1983

I.   Major Activities During the Past Week:

A. Support to OL:

STAT   ICS (Inventory Control System). On August 29 and 30,
STAT   [   ] attended a briefing
STAT on the Inventory Control System (ICS) given by [   ]
OL/SD. The purpose of the briefing was to familiarize the
attendees with the system by providing an explanation of the files
which exist and the dictionaries of the data fields within each
file; and an opportunity to acquire hands-on experience in the
processing of requisitions and the query capability to access on-
line data (terminal display) and off-line data through the SD Data
Base Branch. The 'ICS User Manual' was distributed at the
STAT briefing. [   ] the new Primary Application Specialist for
the system [   ] (U)

STAT   [   ] attended a meeting to review the base line
specifications of procedure XCLP and the possible impact to CONIF
STAT & GAS should changes be made. After careful discussion, [   ]
STAT [   ] Chief, Financial Systems Support Branch, SSD/ODP,
authorized the removal of two lines of code, thus allowing records
STAT with a "PIN" to now be passed to GAS via ADD-COMMIT. [   ] (U)

        INFO (INFO Applications). A change was made to the Personal
Property Claim (PPC) INFO system to provide a field in the primary
file to be used to select and report the claims that have been
STAT completed. [   ] (U)

        AIM (Automated Information Management). A document was sent
to all 67 OL AIM Users describing the use of the SPELL command to
identify misspelled words in AIM documents before they are
STAT forwarded to the recipients. [   ] (U)

II.   General Items:

        None to report.

III. Problems:

        None to report.

IV.   Upcoming Events:

        None to report.
